

STANDARD/GUIDELINE/ADDENDUM ANALYSIS SHEET

RECOMMENDATION TO BOARD OF DIRECTORS FOR APPROVAL TO PUBLISH PROPOSED
STANDARD/GUIDELINE/ADDENDUM

1. STANDARD NUMBER & TITLE: BSR/ASHRAE Addendum *i* to ANSI/ASHRAE Standard 62-1999
Ventilation for Acceptable Indoor Air Quality
2. CHAIR: Andy Persily
3. COGNIZANT TC: 4.3 – *Ventilation Requirements and Infiltration*
4. PUBLIC REVIEW DATES: 1st Public Review: November 15, 1998 – January 14, 1999
2nd Public Review: June 8, 1999 – August 6, 1999
5. COMMENTS RECEIVED: 1st Public Review: Note: Procedures do not require response to
commenters if another full public review is held.
2nd Public Review: 22 comments from 14 commenters
6. UNRESOLVED COMMENTS: 2nd Public Review: 3 unresolved comments from 3 commenters
7. PC APPROVAL VOTE: 10-0-0-4
8. STDC APPROVAL VOTE: TO BE VOTED IN ATLANTIC CITY
9. PURPOSE:

This addendum replaces material in Sections 4 and 6 regarding the use of the IAQ Procedure. It describes situations in which the IAQ Procedure can be used, and it does so in mandatory and enforceable language. It does not tell one how to use this procedure; Addendum 62h addresses that issue.
